AMOENA BREAST FORM - HOW TO SELECT THE RIGHT CUP FORM:

		CUP FORMS		
		1 Shallow	2 Average	3 Full
CUP SIZES	A			
	B			
	C			
	D-G	Cup forms are exemplarily shown for sizes A-C but are also available in sizes D-G.		

Women's breasts not only differ in cup size and band size, but also in cup forms. In order to achieve the closest fit, Amoena offers three different cup forms. These are designated with the numbers 1-3 (corresponding to shallow, average and full cup forms) in the breast form name, e.g. Amoena Contact 2S.

Once the correct breast form size is determined, continue by selecting the cup form. Then, compare the pictures in the corresponding row on the left with the profile of the woman's remaining breast while she is wearing a bra and select the best match. A tight t-shirt can be used to demonstrate a good fit.

TIPS: Women with a small underbust tend towards full cup forms, women with a large underbust tend towards shallow cup forms. The pocket of the bra should harmonize with the footprint of the breast form. If the pocket of the bra is too small, the breast form will fit too tightly which can affect the lifetime of the breast form.
